SUMMARY

Passionate web developer and UX designer with experience in creating responsive and user-friendly web applications. I create responsive, visually appealing web pages and applications using HTML, CSS, JavaScript and react, while leveraging Adobe Creative Suite to produce brand-aligned designs that enhance user engagement. My background in software testing includes both manual and automated testing, ensuring flawless application performance. Additionally, I have a solid foundation in SQL databases, enabling effective data management.

EXPERIENCE

- Software Engineer

Testilo

05/2024 - 01/2025

 - Developed and tested web applications to ensure high quality.
 - Collaborated with the design team to optimize the user experience.
- Web designer

Plotey

09/2023 - 01/2024

 - Worked with the web development team, testers, and designers.
 - Utilized CSS, HTML, and JavaScript in web design projects.
- Software Tester

Dowhile

09/2020 - 11/2020

 - Worked as part of the QA team, performing both manual and automated testing to ensure the functionality and performance of applications.
 - Created and executed test cases based on user requirements and functional specifications to identify any errors or defects in the software.
 - Used Jira to manage bugs, track issues, and communicate with the development team regarding the prioritization and status of bug fixes.
 - Collaborated with developers to reproduce, troubleshoot, and document bugs, and actively worked to verify that resolved issues were properly fixed before release.
